

Adam Osman

Software Engineer Intern

✉ adamosmn06@gmail.com | ☎ [4704240913](tel:4704240913) | 📍 Atlanta, Georgia | 🌐 [LinkedIn](#) | 🔗 adamosman.dev

Summary

Computer Science student at Georgia State University and founder of CourseConnect AI. Built and shipped a full-stack Next.js/TypeScript web application with real-world API integrations and a watchOS health app for Parkinson's patients. Passionate about building user-centered experiences that solve real problems. Seeking a Summer 2026 Software Engineering internship to bring product-driven thinking to an engineering team.

Education

Georgia State University Bachelor of Science • Presidents List Summer 2025
Computer Science Atlanta, Georgia • Aug 2024 - Present, Expected Graduation Fall 2027

- **Completed coursework:** CSC 1301, CSC 1302, CSC 2510; MATH 1113, MATH 2211
- **In-progress (Spring 2026):** CSC 2720 (Data Structures), CSC 3320 (System-Level Programming)

Experience

CourseConnect AI Atlanta, Georgia
Founder & Developer Aug 2025 - Present

- **Built CourseConnect AI:** web app that turns static course syllabi into personalized study tools using AI.
- **Core features:** implemented PDF/DOCX parsing, per-course AI tutoring, and automated study schedules.
- **Tech stack:** Next.js, TypeScript, Firebase, Google Gemini, and OpenAI GPT-4o (vision + flashcard generation fallback).

<https://courseconnectai.com>

Projects

GaitGuard Jan 2026 - Present

- **WatchOS health app:** built GaitGuardAI to assist people with Parkinson's Disease during "Freezing of Gait" (FoG) episodes.
- **Real-time detection:** uses Apple Watch motion sensors and a custom engine to identify gait irregularities.
- **Health-tech focus:** bridges wearable hardware with principles from neurological physical therapy.

PlanDrop March 28th 2026
PlanDrop | Hacklanta Hackathon · March 2026 *Next.js, React, TypeScript, Vercel, Claude AI*

- Built a social AI group-planning platform with a scarcity-based spot-claiming mechanic during a 24-hour hackathon
- Collaborated with a team of 4 to design, develop, and deploy a full-stack web app live at plandrop-1.vercel.app

Skills

♥ React, Next.js, Tailwind CSS, Python ♥ Firebase (Authentication, Firestore, Functions)

♥ OpenAI API, Google Gemini API, Git/GitHub, product prototyping, problem-solving ♥ Team collaboration, project execution, professional communication
